CSE 3715: Data Communications

Class Test 01

Duration: 30 Minutes

Total Marks: 20

ID:

1. What are the three criteria necessary for an effective and efficient network?

[3]

- 1.
- 2.
- 3.

2. Match the following to one or more layers of the OSI model:

[5]

- Reliable process-to-process message delivery
- Route selection
- Defines frames
- Provides user services such as e-mail and file transfer
- Transmission of bit stream across physical medium

3. What are the responsibilities of the data link layer in the Internet model?

[4]

4. In the following figure, **computer A** sends a message to **computer D** via LAN1, router R1, and LAN2. Assume that the communication is between a process running at computer A with **port address m** and a process running at computer D with **port address n**. Show the contents of packets and frames at the network, data link, and transport layer for each hop.
